# CONCEPT + DESIGN

Founded in 2015 Duabi, UAE, Concept Plus Design LLC began as a small, passionate studio with a vision to redefine the relationship between wellness and luxury in modern living. Over the years, our journey has evolved into an internationally recognized practice with over 100 completed projects across the region and beyond. Our design philosophy places human experience at the core crafting spaces that nurture the senses, elevate comfort, and embody timeless sophistication. Every project reflects our belief that true luxury lies in harmony, balance, and well-being, creating environments that are not only beautiful but restorative and deeply personal.
